APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion of the waters of an underground source as heretofore granted under Permit 64803 is issued subject to the terms and conditions imposed in said Permit 64803 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the Proof of Completion of Work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined duty of water under Permits 60669, 61888, 62114, 62582, 63022, 64598, 64803, 65217-T, 65219 and 65221 shall not exceed 201.5 acre-feet annually.

The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the groundwater basin.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

Monthly records shall be kept of the following: (1) the volume of water pumped from each well, (2) the volume of water consumptively used for mining and milling purposes, and (3) the amount of water diverted to the infiltration basin. These records must be submitted to the State Engineer on a quarterly basis, within 15 days after the end of each calendar quarter.

The issuance of this permit expires Permit 65218-T.  
(CONTINUED ON PAGE 3)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.545 cubic feet per second, but not to exceed 60.0 acre-feet annually.

Work must be prosecuted with reasonable diligence and be completed on or before:

April 9, 2001

Proof of completion of work shall be filed before:

May 9, 2001

Water must be placed to beneficial use on or before:

April 9, 2002

Proof of the application of water to beneficial use shall be filed on or before:

May 9, 2002

Map in support of proof of beneficial use shall be filed on or before:
